

Stars of the Week

Each week we would like to highlight the work of a few children who have impressed us with their learning either at home or school. Ordinarily we would present certificates in school for this, but as we can't do that, we will celebrate them here together.

Joel Harrison for trying so hard in school with his writing. Keep up all your hard work Joel.

Rinan Dourecannou for showing such a positive attitude when in school and trying so hard in all that he does. Rinan your super smile really makes everyone's day.

Sammy Dufek for working super hard on his phonics this week. He did a fantastic job sorting the words into the shorter oo/u sound and the longer oo sound. Well done!

Sylvie Godfrey for having a fantastic positive attitude to everything she does. Keep it up Sylvie!

James Patterson for a consistently excellent learning attitude! James is confident and motivated to take on any activity given to him and has produced some awesome work both in his bubble and in his home learning.

Taylor Harrison for having a great, positive, can-do attitude towards English, Reading and Maths home learning tasks! Taylor has produced some fantastic work and really impressed me with his continued efforts!

Bea Brewer for working working so well at school, and demonstrating a fab attitude to her learning. She has produced some beautiful art work and has been a real super star in her class. She has also been a gardening expert- helping her grandad and family in the garden.

Leo Scott Herridge for working so incredibly hard over the past 16 weeks- both at home, and when in school. He has created some amazing pieces of work at home which we have been so impressed by.

Sophia Cooper for trying so hard and really gaining confidence in her Maths Blast work.

Alex Gouldstone for writing a fantastic chapter in his Star Wars story- it included some amazing words such as "smithereens"!!

Henry Hirst for fantastic effort in his maths work (addition, subtraction, multiplication AND division) over the whole of school closure!

Ishaan Singh for sharing some absolutely amazing work on Google Classroom - especially your maths and music work!

Fern Lorimer for trying super hard these last few weeks, especially to make her handwriting super neat!

Eliza Richardson for working hard at home to get lots of home learning done.

Matthew Droop for working well throughout lock-down, and keeping a really positive attitude.

Stella Gorman for working hard at home on all areas of the curriculum, and doing really well with her maths especially!

Charley Ayre for his super presentation on how paper is made. Charley shared a superb video of himself describing how paper is made with accompanying drawings of the process. Great work!

Emma Kemp for working super hard and sharing some wonderful pieces of home learning. This week, Emma has written an incredible story and created some beautiful pieces of art. Well done, Emma!

Penny McDermott for a great attitude towards all of her home learning tasks and a brilliant piece of senses work.

Josh Blades for completing all of his home learning and more!

Dylan Connolly for an incredible Space station design thinking carefully about what is required including certain NASA specifications.

Lois Webb for a fantastic attitude to her home learning but in particular for her wonderful Flying Machines maths work with her brilliant team name of *Up, up and away!*

Kian Murray for consistently completing every single piece of home learning to the best of his ability. Well done Kian!

Olive Edwards for working incredibly hard and taking real care with every piece of her homelearning.

David Wood for a consistent effort with his home learning and for asking for help if he's not sure. Well Done David!

Theo Ward for keeping up a positive attitude and effort with his learning and for being so talkative on the phone - I have enjoyed our chats Theo!

Kiki Braidley for working hard on her home learning, especially maths and having a brilliant attitude whilst in school.

Riley Barstow for persevering with a tricky Einstein maths problem and finding the solution. Super maths - well done!

Tilly Mills-Wood for detailed planning in writing.

Ruby Thompson-Holland for trying new sports such as skateboarding and trying her hand at gardening. Her strawberries were particularly successful.
