

Early Years

What another amazing week we have had in Early Years.

The children have been busy getting to know each other as we have all been in together for full mornings this week. The absolute highlight though has been staying for lunches at school! The children have LOVED it!

Here are some quotes that made us smile 😊

"This pizza is the best thing I've ever had."

"We went to the best place ever in school. It had round chairs to sit on." (It is so lovely that the children love our lunch tables which really do have circular seats)

"My jelly is the wobblest jelly I ever had!"

Years 1 & 2

In Year 1 this week we have been continuing to find out more about our amazing selves. We have been identifying our body parts in science and using technology to take photographs of our friends' body parts! We have also been exploring our emotions through The Colour Monster book.

What a wonderful week we have had in Year 2! This week we introduced our class text The Night Pirates and have used this to look at different sentence types including questions, exclamations and commands. In Science, we have been thinking about what properties our treasure would need to have. Some of the children thought that a stretchy treasure chest would be brilliant as then they could fit more treasure in but we definitely didn't want a transparent treasure chest because then everyone would see our treasure!!

Years 3 & 4

This week, Year 3 have been learning how to create and edit a Google doc. We used the Chromebooks and are now experts at logging in too. The children are working on making a dragon wanted poster, so far they have inserted a text box and used Word Art to make sure the title really stands out. Keep your eyes peeled for the finished results soon!

This week in Year 4 we've been writing some fantastic stories based on "Lost Happy Endings". We were great scientists when we were classifying different types of vertebrates. We also have loved learning how to throw and catch in Lacrosse.

Years 5 & 6

In Year 5, we have been exploring Ancient Greek mythical beasts this week and the legends and stories surrounding them. We have taken it upon ourselves to create and describe our own mythical creatures, based on what we have learnt about Ancient Greek mythology and expanded noun phrases.

Year 6 children have had an excellent this week and have definitely settled into school life really well. Numerous members of staff have commented on how polite and well mannered the children are. In addition to learning the 'push pass' in hockey, learning about where the ancient Mayans lived and choreographing a Mayan inspired dance, the children have enjoyed creating a clay leaf sculpture to practise their clay skills.
