

## Early Years

We have had another very busy week in Early Years. We have finished learning the signs for the colours of the rainbow and we did a super job of listening to the song and signing along to it. The person on the screen did the singing and our job was to do the lip patterns and the signs. The children were BRILLIANT and I am sure they would love to show you this at home.

We have continued to be very interested in our snails and the children have been busy using their fab phonics to have a go at writing names for them. We have even had some super snails being made in our creative area. Well done everyone!

## Years 1 & 2

We have been so impressed with the fantastic attitude our Year 1 children have had this week while they have been learning from home. We have been sent fabulous art work, great throwing and catching videos, marvellous maths and we have seen lots of super sentences which have included full stops, capital letters and full stops! WOW!! You have blown us all away Year 1!

In Year 2 this week we have had our end of term Pirate Celebration Day! The children all looked so fantastic dressed up in their costumes! As part of our day we have had pirate story telling, biscuit decorating, walking the plank to aim at targets and even made our own parrot! In the afternoon we made and decorated our treasure chests – we found out from science this term that wood would be a good material. What a wonderful half term it has been!

## Years 3 & 4

This week in Year 3 we have used all of our dragon knowledge to create non-chronological reports about the fascinating creatures. We have used subheadings to organise our facts and added illustrations to make them look interesting. What a fab way to finish a delightful dragon filled half term.

In Year 4, we finished and tested our Earthquake proof houses with mixed successes! The children had great fun designing and building them. We finished writing our stories, which will be brought home for their audience (you parents!), and the children created some amazing paintings inspired by Van Gogh's Sunflowers.

## Years 5 & 6

In Year 5 we have had a fantastic final week of a brilliant first half term back at school. This week we have sculpted and painted our final Greek vase designs, we have explored and retold a range of our favourite Greek myths and we have topped the week off with a big Year 5 inter-house football tournament to practice our dribbling skills. Well done Year 5!

It has been a great last week of the half term! We have been incredibly busy right up to the very end, making the finishing touches to our persuasive letters and identifying multiples, factors and prime numbers in maths. This afternoon, we ended our Ancient Mayan topic by recreating some of the Mayan hieroglyphs in string and glue art. You have all been stars this half term Year 6! Enjoy your well-deserved break.
