

A guide to connecting to Google Classroom from different devices

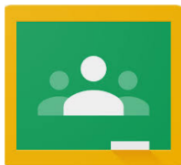

iPhone or android phone

There is a Google Classroom app in both the App Store on apple devices or on the android App Store. Look out for this app logo:

Tablet

There is a Google Classroom app in both the App Store on apple devices or on the android App Store. Watch this video to help: <https://www.youtube.com/watch?v=8pueFFwwQuQ>
Look out for this app logo:

Amazon Fire

You will need to download Google Play to be able to download Google Classroom and other useful apps. Watch this video <https://www.youtube.com/watch?v=5YejBlzFytE> or read this article to help <https://www.androidpolice.com/2020/12/25/install-play-store-amazon-fire-tablet/>

Playstation 4

Watch: <https://www.youtube.com/watch?v=kg0nzLQH6Dg>

Playstation Instructions: Go to Library (should be the last icon on the right)

Search: Internet Open Internet Browser (the WWW icon)

Go to [google.classroom.com](https://www.google.com/classroom.com) and sign in with your school account.

XBOX 1

Go to My Games and Apps

Go down to the Apps Menu

Select Microsoft Edge (may have to download, it's free)

Go to google.classroom.com and sign in with your school account!

Nintendo Switch

You will need to go to the settings button (scroll across the bottom).

Select Internet and internet settings. Once here, you select your internet provider and select change settings.

Now choose DNS settings. Change it to manual.

Now choose Primary DNS settings. Now change the code to: 045.055.142.122 (this is Google's browser setting). Press ok. Press Save.

Now select: connect to this network. This will look like it hasn't worked but just click Next.

Then a white page will appear. Be patient!

Now press continue to google. Now you can search google classroom. Watch here:
